Midwest Alcoholism Research Center presents

# The Ninth Annual Guze Symposium on Alcoholism

## In Memory of Samuel B. Guze, MD

Samuel B. Guze, MD, was a pioneer in the field of alcoholism research. He joined the Washington University School of Medicine faculty in 1951, served as vice chancellor and president of the Medical Center from 1971 to 1989, and headed the Department of Psychiatry from 1975 to 1989 and again from 1993 to 1997. Dr. Guze was highly respected as a researcher, an administrator and a leader in the field of psychiatry.

## About the Symposium

Presenters at the symposium will include experts on research related to transdisciplinary alcohol prevention efforts. Topics will include:

- Early onset use and later outcomes
- Neural mechanisms underlying vulnerability to abuse
- Child abuse; neurobiology and social policy
- Translational approaches to nicotine dependence treatment
- Translational model for prevention

Posters are displayed throughout the day and will feature the latest scientific findings.

## Meeting Award Opportunities

Limited numbers of meeting awards are available to NIAAA and other pre- and post-doctoral trainees as well as community-based individuals. The awards are intended to help defray costs associated with attendance at the symposium for those who would otherwise not be able to attend. Research awardees are expected to present a scientific poster. The application and registration brochure can be accessed from our web site at [www.alcoholdependence.org](http://www.alcoholdependence.org) or by e-mailing requests to [GuzeSymp@psychiatry.wustl.edu](mailto:GuzeSymp@psychiatry.wustl.edu). Award applications must be received by December 31, 2008.

## Midwest Alcoholism Research Center

The Midwest Alcoholism Research Center (MARC) is one of 19 Alcohol Research Centers funded by the U.S. National Institutes of Health. MARC is a multisite Alcohol Research Center, with participating investigators from two leading Midwest research universities — Washington University (the lead institution) and the University of Missouri-Columbia, and from additional collaborators, Queensland Institute of Medical Research, Brisbane, Australia; the University of Iowa, Iowa City, Iowa; and Palo Alto Veterans Administration, Palo Alto, California. Its research programs include statewide, national and international projects.

## Sponsor

This activity is sponsored by Washington University School of Medicine, Continuing Medical Education.

## Support

This activity is supported by grant AA013717 from the National Institute on Alcohol Abuse and Alcoholism and by an unrestricted educational grant from Anheuser-Busch Companies, Inc.
